

A dramatic photograph of the Notre Dame Cathedral in Paris engulfed in flames. The fire is visible on the roof and upper structures, with thick smoke billowing out. The cathedral's iconic spire is partially visible through the smoke. The overall atmosphere is one of tragedy and loss.

A photograph of the interior of Notre Dame Cathedral in Paris, France, following the 2019 fire. The image shows the vast, darkened space filled with the charred remains of the wooden roof and walls. In the center, the golden cross of the altar stands prominently against the dark background. Rows of wooden pews are visible in the foreground and middle ground. The stone walls and arches of the cathedral are visible, though heavily shadowed by the fire damage.

THINGS WE FOUND AMONG THE ASHES

**Employee Must Wash
